

Biography – Keith Meyer

Keith Meyer is a seasoned executive with more than 35 years of global energy industry experience. He has served in senior management positions in both Fortune 500 and smaller, faster-growing energy companies. He has led multi-disciplinary teams in the development of large-scale infrastructure projects spanning four continents to include LNG terminals, natural gas pipelines, power plants, gas liquids plants, storage, and gas separation projects.

Mr. Meyer joins AGDC from LNG America, an energy logistics company he founded in 2008 to provide end-to-end LNG distribution solutions to increase the use of LNG as a fuel source within the marine, transportation and other high horsepower industries. Previously, Meyer was a senior executive with Cheniere Energy, Inc. ultimately serving as President of Cheniere LNG where he oversaw the development of the Sabine Pass receiving terminal, North America's largest. During his tenure at Cheniere, Mr. Meyer also served stints as president of the corporation's pipeline company, O&M company and marketing company, and on Cheniere's Executive Committee. Prior to joining Cheniere, Meyer led domestic and international pipeline and gas storage development for CMS Energy Inc., a large U.S. utility holding company. He started his professional career as a marketing and strategic planning executive with ANR Pipeline Company a major U.S. interstate natural gas transmission company.

Mr. Meyer was Chairman of the Board of Flex LNG, a public company developing floating LNG production facilities. He advised the Israeli Government on commercial aspects of that country's LNG import terminal and has been a guest lecturer at Duke University, Louisiana State University, the University of Houston, and an instructor for Rice University's Energy Management Program. He holds an MBA from Rice University and a finance degree from Wayne State University.
